[Portfolio](#) - [Github](#) - [LinkedIn](#)

Technical professional with a background in full-stack development and practical experience working with JavaScript, React, Node.js, SQL, and Python, combined with hands-on operational experience in customer-facing environments. Experienced in troubleshooting application issues, working with data, and supporting the reliable use of software systems through projects and operational roles. Experience working in agile, team-based environments, with a practical approach to problem solving and clear communication.

## Core Skills

- Systems & Application Support  
Application troubleshooting, incident handling, SQL-based data investigation, operational and IT service workflows
- Programming & Web Technologies  
JavaScript (ES6+), React, Node.js, REST APIs, PostgreSQL (queries & joins), HTML, CSS, TailwindCSS, Bootstrap
- Data & Reporting  
SQL reporting, Python data cleaning & transformation, dashboard-style data visualisation
- Tools & Ways of Working  
Git, GitHub, Agile/Scrum, Trello, GitHub Projects, Slack, Discord, AI-assisted productivity & debugging tools

## Professional Experience

### Application Support / Systems Intern

Code Your Future – London | *Apr 2023 – May 2023*

- Supported development and maintenance of an internal trainee milestone tracking system.
- Built and debugged REST APIs using Node.js and PostgreSQL.
- Investigated data inconsistencies using SQL and application logs.
- Collaborated in an agile team with developers and non-technical stakeholders.

### Receptionist (Operations & Systems Focus)

Fraser Suites Queens Gate – London | *Feb 2025 – Present*

- Perform night audits including financial reconciliation, reporting, and system checks.
- Work daily with reservation, billing, and property management systems.
- Identify and resolve operational and system-related issues in a fast-paced environment.
- Maintain accurate records and reports with a strong focus on data accuracy.

- Balance technical problem-solving with customer-facing communication.

#### Frontend / Internal Tools Developer (Project-Based)

##### [TV Shows Project](#) – London | 2024 – Present

- Built a responsive React application displaying over 300 TV shows using external APIs.
- Implemented data-driven UI components with a focus on usability and maintainability.

#### Frontend Developer (Project-Based)

##### [Game Play Project](#) – London | Dec 2023 – Feb 2024

- Developed and deployed a responsive gaming website using React and JavaScript. Improved site performance and load times through optimisation techniques.
- Troubleshooting UI and performance issues to improve stability and user experience.

### Training & Certifications

- Full-Stack Software Development Bootcamp (2023)– Code Your Future, London  
(JavaScript, React, Node.js, PostgreSQL, Agile)
- AWS Fundamentals (2024) – Code Your Future
- Data Analysis with Python (2025) – freeCodeCamp (*in progress*)
- Responsive Web Design (2021)– freeCodeCamp
- C# (2026) – freeCodeCamp (*in progress*)

### Education

Bachelor of Commerce (2002) Overseas degree – UK ENIC comparable to UK Level 6

### Key Strengths

- Systems thinking and analytical problem solving
- Strong communication in technical and customer-facing contexts
- Adaptability in operational environments
- Accountability and reliability

### Reference

- SC and DV cleared and any reference available upon request.
