A highly enthusiastic and dedicated Fullstack Developer with 3 years of experience in JavaScript, React, and Node.js. Proficient in building responsive, secure, and scalable web applications. Experienced in collaborating with cross-functional teams in agile environments to deliver high-quality software solutions. Known for quick learning, problem-solving skills, and a commitment to writing clean, maintainable code. Eager to contribute my technical expertise and grow within a dynamic team, with a focus on delivering secure and stable software products. Available to start immediately

KEY SKILLS AND COMPETENCIES

- **Full-Stack Web Development:** Experienced in both frontend and backend web development using technologies like JavaScript, React, **Node.js, and PostgreSQL.**
- **Programming Proficiency:** Strong programming skills in **JavaScript, ReactJS, and Node.js,** with experience developing scalable and maintainable codebases.
- **Frontend Development:** Proficient in creating responsive web interfaces using **HTML, CSS**, React, and modern frameworks like **TailwindCSS and Chakra UI.**
- **Backend Development:** Experience developing **REST APIs**, working with databases such as PostgreSQL, and solving backend-related issues.
- **Web Design:** Ability to design and implement user-friendly, **responsive**, and visually appealing web pages using modern web design tools and techniques.
- **Collaboration and Communication:** Proven ability to work effectively in a team environment, collaborating with developers, designers, and stakeholders to deliver functional and aesthetically pleasing web applications.
- **Problem-Solving:** Strong analytical skills in troubleshooting and resolving both frontend and backend technical issues, ensuring optimal performance.
- **Collaboration Tools**: Experience using **Slack and GitHub Project Board** for team communication and **project management**.

EXPERIENCE

Frontend Engineer
TV Shows – November 2024 - Present
London, United Kingdom
- Developed a fully responsive website showcasing over 300 TV shows using React, TailwindCSS, and API integrations.
- Optimised frontend performance and resolved issues related to UI/UX, ensuring a seamless user experience across devices.
- Collaborated with backend developers to integrate APIs and ensure efficient data flow.

Full-stack Developer Internship
Code Your Future – April 2023 - May 2023
London, United Kingdom

- Contributed to the development of a trainee milestone tracking web application using JavaScript, Node.js, React, and PostgreSQL.
- Worked on both frontend and backend development, ensuring the web app met accessibility standards and provided an intuitive user experience.
- Developed RESTful APIs and integrated them with the frontend for smooth data handling and display.

Frontend Engineer
Game Play – Dec 2023 - Feb 2024
London, United Kingdom

- Built and deployed a fully responsive gaming website, improving site load times by 40% through efficient use of React Hooks, JavaScript, and CSS frameworks like Chakra and Bootstrap.
- Troubleshooted frontend performance issues and implemented best practices to enhance user satisfaction and web functionality.

IT Support Assistant
Maroghi LTD – March 2022 - October 2022
London, United Kingdom

- Provided IT support for company systems and helped maintain online platforms, including WordPress-based sites.
- Assisted with technical troubleshooting, OS installations, and system upgrades, ensuring smooth system functionality across various platforms.
- Gained exposure to web technologies, contributing to the enhancement and maintenance of the company's digital products.

SOFT SKILLS

- Problem solving
- Adaptability and flexibility
- Collaboration
- Analytical skills
- Time management
- Accountability
